To Whom This May Concern;

In the past 15 months we have been involved in the building of Algoma Manor Nursing Home in Thessalon. The construction company we have been involved with is Sal Dan General Contractors Inc. Under the watchful eye of Sam Biasucci, we have been on budget and on schedule. He personally has attended bi-weekly site meetings. He expects high quality work as well as demands prompt time lines from all subcontractors. Sam has attended and supported our fundraising events.

He has appointed one supervisor on the outside side and a separate supervisor for the inside site. His company demands high standards for health and safety and keeps the work site neat and clean. All inspections and materials have been well organized. His relationship with both the overall project manager and our architect has been very effective and respectful.

The number of change orders has been minimal. The end result is a beautiful solid building on a well-manicured site. Our management and staff have been very pleased with this working relationship and our final product.

This is to acknowledge the excellent support and commitment that Sam and his firm made to the construction of our 96 bed Not for Profit Long Term care Home. Sam's team lived up to their promised deliverables. Anyone working with this company will be pleased with both the daily process as well as the end result.

Thank you,

Donna Latulippe
