To Whom It May Concern:

I am pleased to provide this letter of recommendation for:

Sal-Dan General Contractors Inc.

64 Industrial Park Crescent

Sault Ste. Marie, ON

Sal-Dan, and its principal Sam Biasucci, have been contractors or developers for several of our projects over the past 20 + years, including a 3-storey office building completed in 2008 and an EMS station completed in 2009.

It is my experience that their approach to construction is professional with projects delivered on time, on budget and with a constant attention to customer satisfaction.

Given this experience, we would not hesitate to recommend Sal-Dan to our Clients as a contractor for any commercial, institutional or residential development.

M. Bruce Caughill, P.Eng., OAA
Consulting Engineer and Architect
